

## The Magic Christian – Part 2

*But above all things, my brethren, swear not,  
neither by heaven, neither by the earth, neither by any other oath*  
James 5:12; KJV

Do not swear “by any other oath” is what the Word commands.

For President Bush and John Kerry—who ran against Bush in the 2004 Presidential election—this might pose a problem if indeed they are true Christians because both have taken oaths as members of the most secretive fraternity and society in America.

Both are members of Skull and Bones 322, which calls the Yale campus home. 322 represents a chapter of sorts.

The first two numbers denote the year in which the society was begun: 1832.

The last 2 indicates it was the second chapter begun, the first having been started in Germany.

Candidates, by the way, don’t just pledge to get in. They must be selected.

This is not some beer-drinking, arm-pit-farting fraternity. This is an extremely elite group that “taps” only 15 juniors each year for membership. In its 174-year existence there have been only 2610 members, 800 of which are believed to be alive today.

You no doubt will recognize some of the names of those who have called themselves Bonesmen: Rockefeller, Harriman, Vanderbilt, Taft, Bundy, Weyerhaeuser, Goodyear, Pillsbury, Kellogg, Vanderbilt, and, of course, the Bushes.

Not only is our current President a member of S&B, but his father, George H.W.—the 41st President—was tapped in 1948 and his father Sheldon Prescott, a former Connecticut Senator, was tapped in 1917. Kerry, by the way, was tapped in 1966.

On February 8, 2004, Bush appeared on *Meet the Press*, whose host Tim Russert made the statement, “You were both [meaning Bush and Kerry] in Skull and Bones, the secret society.”

To which Bush, replied, “It’s so secret, we can’t talk about it.”

In *America’s Secret Establishment*, author and researcher nonpareil, Antony C. Sutton, wrote of S&B:

“Those on the inside know it as The Order. Others have known it for more than 150 years as Chapter 322 of a German secret society. More formally for legal purposes, The Order was incorporated as The Russell Trust in 1856. It was also once known as the ‘Brotherhood of Death’ . . . The Order is not just another campus Greek letter fraternal society with passwords and handgrips, common to most campuses. Chapter 322 is a secret society whose members are sworn to silence. It only exists on the Yale campus (that we know about). It has rules. It has ceremonial rites. It is not at all happy with prying, probing citizens—known among initiates as ‘outsiders’ or ‘vandals’ . . . Above all, The Order is powerful, unbelievably powerful.”

Alexandra Robbins, a Yale alumna and a member of Scroll and Key, wrote in her book *Secrets of The Tomb* that “members are given new code names. The members call themselves ‘Knights,’ and simultaneously call everyone else in the world at large ‘barbarians.’”

*The Tomb* is S&B's fraternity house. Such an upbeat kind of name, isn't it?  
But the concept of *The Tomb* has a very important place in S&B tradition.

In his book, Sutton quotes Ron Rosenbaum, a Yale alumnus who wrote an article, "Last Secrets of Skull and Bones," which appeared in the September 1977 issue of *Esquire*, that when a new member is initiated into The Order, "he will die to the world and be born again into The Order as he will thenceforth refer to it. The Order is a world unto itself in which he will have a new name and fourteen new blood brothers, also with new names."

Part of the initiation requires one to lie naked in a coffin as the "born-again" experience takes place.

Sutton again quoting Rosenbaum from a dossier obtained by the latter:

"New man placed in coffin—carried into central part of building. New man chanted over and reborn into society. Removed from coffin and given robes with symbols on it (sic). A bone with his name on it is tossed into bone heap at start of evening. Initiates plunged naked into mud pile.

"Again, we have a sordid preoccupation with coffins, skeletons and death."

So when you hear President Bush say he was born again, he's telling the truth, but the rebirth is not the kind Christians have in mind.

In *George Bush: The Unauthorized Biography*, co-authors Webster G. Tarpley and Anton Chaitkin provide more information about the S&B rituals:

"Before giving his life history, each member had to spend a Sunday night reviewing his sex life in a talk known in the Tomb as CB, or 'connubial bliss' . . . .

"The first time you review your sex life. . . .we went all the way around among the 15,' said Lucius H. Biglow Jr., a retired Seattle attorney. 'That way you get everybody committed to a certain extent. . . .It was a gradual way of building confidence.'

"The sexual histories helped break down the normal defenses of the members."

Bonesman William J. Connelly, Jr., added, "In Skull and Bones we all stand together, 15 brothers under the skin. [It is] the greatest allegiance in the world."

Tarpley and Chaitkin continue: "Here is our future U.S. President with the other wealthy, amoral young men, excited about their future unlimited power over the ignorant common people, sharing their sex secrets in a mausoleum surrounded by human remains. The excited young men are entirely directed by the 'Patriarchs,' the cynical alumni financiers who are the legal owners of the Order."

As unbelievable as this all seems, the information is nevertheless true. It's just one of the myriad dirty secrets the Elite hide from the American people, who, whether Christian, Jew, Muslim or otherwise, are imbued with enough values to be nearly incapable of believing that this kind of macabre lifestyle inhabits corridors of power.

But it does.

This world is Satan's realm, and government—be it a Constitutional republic, a democracy or a socialist or communist state—is nothing more than a human construct that can do nothing else but tilt toward corruption.

Jesus put it plainly in John 18:36: "My kingdom is not of this world."

But its governments are.

And its minions are.

Where are you?
